

NGUYEN HOANG MINH

Middle .NET Developer

+84 901 234 567 | minh.nguyen.netdev@email.com | [linkedin.com/in/minhnguyen-net](#) |
Ho Chi Minh City, Vietnam

PROFESSIONAL SUMMARY

Dedicated and results-oriented Middle .NET Developer with over 4 years of experience in designing, developing, and deploying scalable backend services and web applications. Proficient in C#, ASP.NET Core, and Entity Framework Core, with a strong grasp of microservices architecture and cloud-based deployments on Microsoft Azure. Adept at optimizing database performance, writing clean and maintainable code following SOLID principles, and collaborating effectively in Agile/Scrum environments. Eager to leverage technical expertise to build robust solutions and tackle complex engineering challenges.

TECHNICAL SKILLS

Languages:	C#, JavaScript, TypeScript, SQL
Frameworks & Libraries:	.NET 6/8, ASP.NET Core Web API, Entity Framework Core, LINQ, ReactJS (Basic)
Databases:	MS SQL Server, PostgreSQL, Redis
Architecture & Concepts:	Microservices, RESTful APIs, OOP, SOLID, Design Patterns, CQRS, MediatR
DevOps & Tools:	Git, Docker, Azure DevOps (CI/CD), Postman, xUnit, Moq

WORK EXPERIENCE

Middle .NET Developer

Mar 2023 – Present

TechNova Solutions, Ho Chi Minh City

- Designed and developed RESTful APIs using ASP.NET Core 8 and Entity Framework Core for a high-traffic e-commerce platform.
- Migrated a legacy monolithic application to a microservices architecture, improving system scalability and reducing deployment time by 40%.
- Optimized complex SQL queries and implemented Redis caching, resulting in a 35% decrease in API response times.
- Integrated third-party payment gateways (Stripe, VNPay) securely into the checkout workflow.
- Mentored 2 junior developers, conducted daily code reviews to ensure adherence to coding standards, and wrote comprehensive unit tests using xUnit and Moq (achieving 80%+ coverage).
- Configured and maintained CI/CD pipelines using Azure DevOps for automated testing and deployment.

Junior .NET Developer

Aug 2021 – Feb 2023

GlobalTech Software, Ho Chi Minh City

- Developed and maintained features for an internal CRM system using ASP.NET Core MVC and MS SQL Server.
- Collaborated with front-end developers to integrate APIs with the React-based user interface.
- Created database schemas, wrote stored procedures, and generated complex reports for the business intelligence team.
- Participated in daily stand-ups and bi-weekly sprint planning as part of an Agile/Scrum team.
- Resolved critical production bugs, reducing system downtime by tracking and fixing memory leak issues.

EDUCATION

Bachelor of Science in Software Engineering

Sep 2017 – Jul 2021

University of Information Technology (VNU-HCM), Ho Chi Minh City

GPA: 3.4/4.0

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) - Issued 2023
- EF SET English Certificate 65/100 (C1 Advanced)
